

During the week of August 13, 2018, the United States Environmental Protection Agency will continue to conduct sampling in the Eastern Heights community. EPA plans to sample ambient air (outdoor air) and groundwater. EPA will ask property owners for permission before testing their property. This sampling event is part of the Remedial Investigation (RI) for the Rockwell Grenada site. The purpose of the RI is to collect data necessary to assess any risks to human health and the environment, which will help determine future cleanup activities.

If you have any questions, please call Shelby Johnston, Remedial Project Manager, at (404) 562-8287, or Abena Ajanaku, Community Involvement Coordinator, at (404) 562-8834. More information about the site can be found at: www.epa.gov/superfund/rockwell-intl-wheel.
